WHY SALHAN ACCOUNTANTS?

PERSONAL SERVICE, SME-FRIENDLY PRICES

We're an award-winning accountancy practice with a reputation for delivering outstanding accounting and tax services at competitive prices.

From payroll and account management to bookkeeping, budgeting and VAT, our experts understand exactly what your business needs. We'll help you comply with statutory requirements, keep track of your finances, make informed decisions and take advantage of early tax planning opportunities – and we'll always go the extra mile to give you more value.

We're invested in the success of your business – and are committed to building personal relationships that last for the long term.

FREE **xpert** TECHNOLOGIES ACCOUNTING AND BUSINESS SOFTWARE

A key feature that differentiates us from other accountants is that we don't stand still. By constantly innovating, we help our clients make their processes slicker and their businesses more agile. So we're not just your standard accountancy practice, we're a fintech, too.

As a Salhan client, you benefit from our Xpert Technologies accounting software – completely free. Encompassing invoicing, reporting, analytics, leave management and more, our software is completely free. As a result, you enjoy the exact functionality you need to support your business without having to pay expensive licences fees for other solutions. In other words: your life is easier and you're saving money.

"Although I'd heard about Salhan Accountants via a recommendation, I didn't expect the incredible service I've received. They've given me so much personal attention, even though my business is small. Thank you!"

- Client

"Salhan is the best accountancy firm in the West Midlands. The thought they put into their work is outstanding."

OUR SOFTWARE: **xpert** TECHNOLOGIES

Software makes it easier to manage your business and streamline processes. But too often, you end up paying for features you don't need – or you find that capabilities you'd like cost more than you want to spend. We developed Xpert Technologies so you don't have to face that trade-off. The software gives you the exact functionality you need as an SME – completely free.

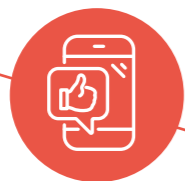

You get support on using everything, and we're always on hand to help with questions or issues. And if you're currently using other solutions, you can mix and match to fill gaps (or enjoy a seamless transition).

xpert TECHNOLOGIES: THE BENEFITS

It's all free when you're a Salhan client

Practical, user-friendly features designed for SMEs

No irrelevant functionality aimed at corporates that have complex processes

You get valuable analytics and automation capabilities that are typically expensive (and therefore not worth the investment for SMEs)

xpert TECHNOLOGIES A-KOUNTS

Make SME life easier with our innovative accounting software.

Raise invoices, process purchases and reconcile transactions – then access reports including balance sheets and VAT returns. Whatever device you're using, Xpert A-Kounts helps you work smarter and save time.

xpert TECHNOLOGIES ANALYTICS

Uncover detailed insights on performance, productivity and profitability with our business intelligence software.

Leveraging financial data from Xpert A-Kounts, Xpert Analytics delivers dashboards, metrics and trends covering business viability, cash flow, payment times and much more. At a glance, you can understand revenue, costs and profits in real-time, so you can make more informed decisions.

xpert TECHNOLOGIES LEAVE MANAGEMENT

From holiday management to absence reporting, sickness management and appraisals, our Xpert Leave Management automates your HR procedures.

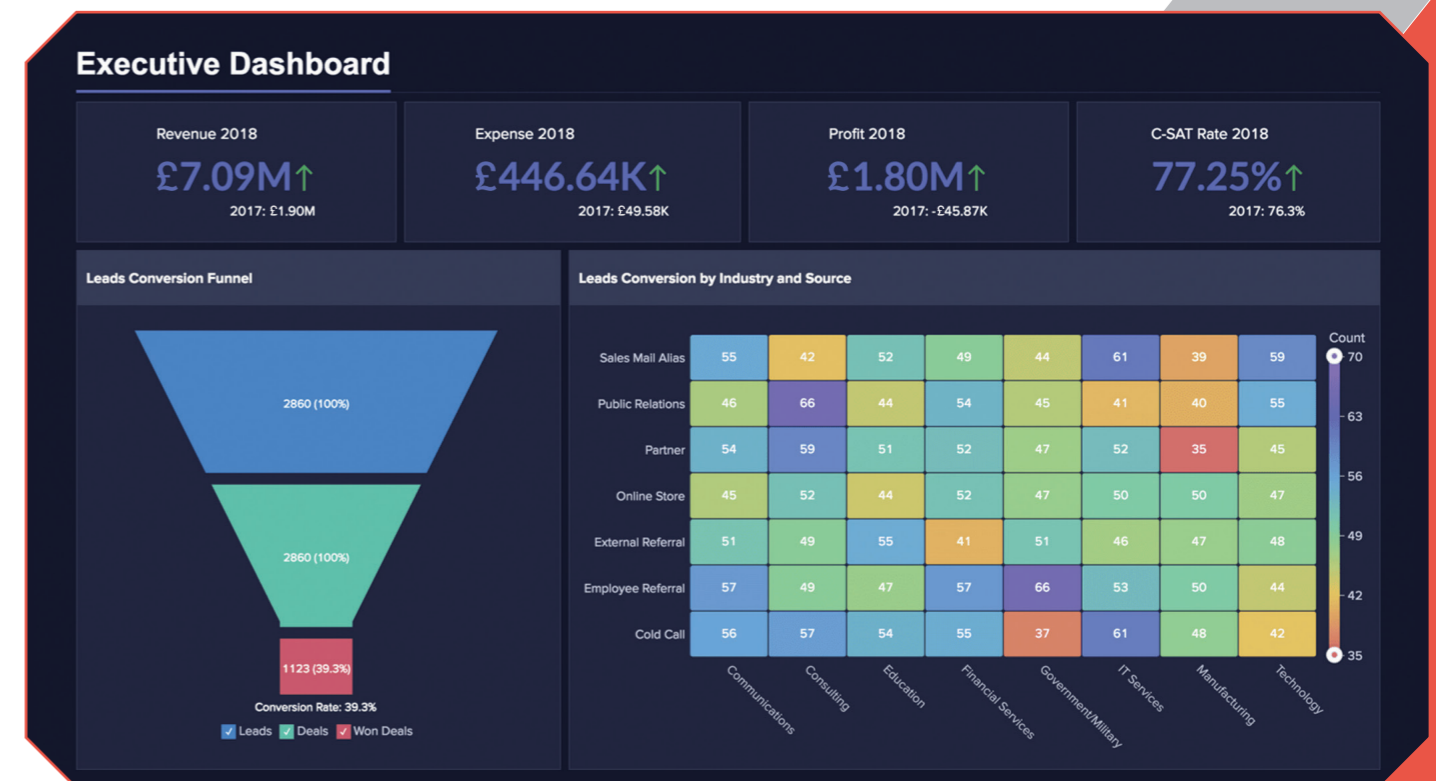

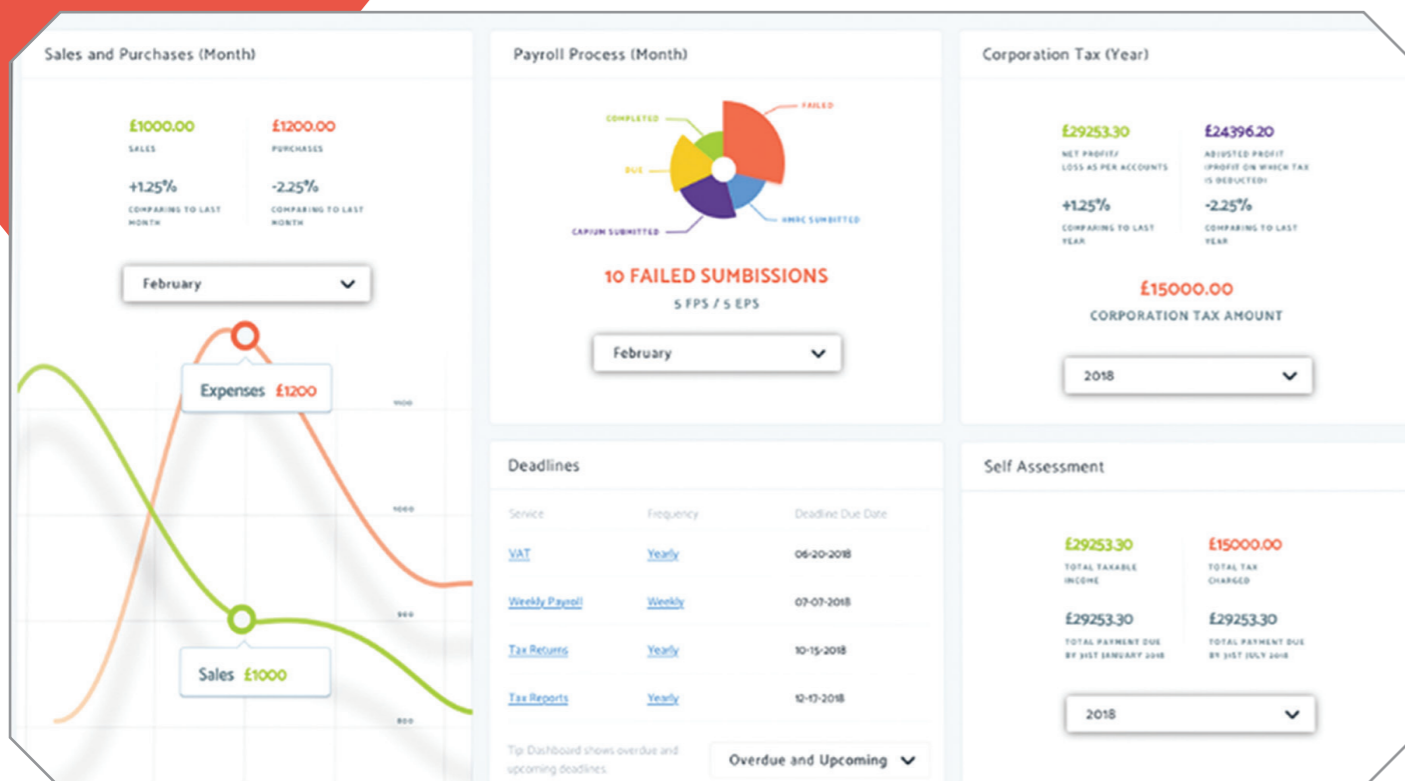

It's a user-friendly way to streamline traditionally manual processes, saving time for management, HR and employees while giving everyone real-time access to information they need.

U-FILE UPLOAD

This secure, cloud-based document management system brings all your files together in one place, so you can share them effortlessly and more easily collaborate with colleagues and customers.

DEXT

You also get a free licence to this third-party software, which helps you automate processes around bookkeeping, supplier accounts and expense reporting.
